- Counting Coins: Using manipulatives to sum up coin values, with exercises increasing in complexity.
- Using Play Money: Simulated shopping activities to practice making purchases and calculating totals.
- Making Change: Situational problems where children determine the change due after

transactions.

Measuring Cost and Value

Understanding the concept of worth extends into:

- Price Comparisons: Activities comparing costs of items to develop estimation skills.
- Budgeting Basics: Simple exercises involving "saving" and "spending" play money.
- Real-Life Contexts: Role-playing shopping scenarios to reinforce practical application.

Teaching Strategies and Best Practices

- Use of Real and Play Money: Hands-on handling increases familiarity.
- Scenario-Based Learning: Creating mini "stores" or "markets" for children to practice transactions.
- Integrating Math and Money: Combining addition, subtraction, and measurement skills for comprehensive understanding.

Sample Activities

- Setting up a classroom store with price tags.
