Sample FET Marketing Management N4 Questions and Model Answers

Question 1: Explain the concept of the marketing mix and its importance in marketing management.

Model Answer:

The marketing mix, often referred to as the 4 Ps (Product, Price, Place, and Promotion) is a set of tactical marketing tools that a business uses to produce the desired response from its target market. It is essential because it helps businesses coordinate their marketing efforts to meet customer needs effectively and achieve their organizational goals. For example, a company may develop a new product (Product), set a competitive price (Price), distribute it through suitable channels (Place), and promote it through advertising campaigns (Promotion). Proper management of the marketing mix ensures that all elements work harmoniously to attract and retain customers.

Question 2: Describe the different types of market research and their roles in marketing decision-making.

Model Answer:

Market research can be classified into primary and secondary research. Primary research involves collecting new data directly from sources, such as surveys, interviews, focus groups, and observations. It provides current and specific information relevant to the company's needs. Secondary research involves analyzing existing data from reports, industry publications, government statistics, and online resources. It is cost-effective and useful for understanding market trends and competitor activities. Both types of research help marketers make informed decisions about product development, pricing, promotion, and distribution strategies.

Tips for Success in FET Marketing Management N4 Exams

- Understand Key Concepts: Focus on grasping core marketing principles rather than rote memorization.
- Practice Past Papers: Familiarize yourself with question formats and time management.
