The exams were scheduled over a period spanning approximately three weeks, typically starting in early November and concluding before the festive season.

General features of the timetable included:

- Start and End Dates: The exams began around the first week of November and wrapped up towards the end of the month.
- Subject Distribution: Core subjects such as Mathematics, Physics, Chemistry, Biology, English Literature, and History were scheduled in the early to mid-part of the timetable, with more specialized and elective subjects positioned strategically.
- Duration of Papers: Most papers were allocated 2 to 3 hours depending on the subject complexity.
- Multiple Sitting Arrangements: For subjects with practical components, practical exams or oral

tests were scheduled separately from written papers.

Detailed Breakdown of the 2014 Examination Schedule

- Start of the Exams

The timetable typically commenced with foundational subjects that set the tone for the examination period. For 2014, the initial papers included:

- English Language and Literature ? These are mandatory subjects and often scheduled early to accommodate their significance.

- General Paper ? A critical subject for many students aiming for university entry.

- Science Subjects

Science papers, especially Physics, Chemistry, and Biology, are core to many A Level students' curricula. The timetable allocated consecutive days for these subjects, with practical exams scheduled separately to ensure adequate preparation time.

- Physics: Usually scheduled early in the timetable, with theoretical papers in the morning and practical assessments in the afternoon or subsequent days.

- Chemistry and Biology: Usually scheduled in the second week, with practicals following the written exams.

- Arts and Humanities

Subjects like History, Geography, and Literature had designated slots, often in the second and third weeks. These subjects often require less logistical coordination for practicals but demand extensive written responses.

- Electives and Technical Subjects

Subjects like Accounting, Business Studies, and technical disciplines such as Information Technology (IT) or Technical Drawing were slotted in the latter part of the timetable, allowing students to focus on core subjects first.

- Practical and Oral Components

Certain subjects, particularly sciences and languages, had practical and oral assessments scheduled either before or after the main written papers. This segmentation was crucial to prevent student fatigue and maintain examination integrity.

- **Resource Constraints:** In rural or under-resourced centers, delays or shortages of materials sometimes impacted the exam process.
- **Security Concerns:** Ensuring the safe transit of examination materials across vast distances posed ongoing challenges.

Critics argued that these issues, though systemic, could diminish the fairness and credibility of the examination process if not managed effectively.

Comparative Analysis with Previous and Future Timetables

Examining the 2014 timetable in context reveals trends and areas for improvement:
